Palos Community Hospital

## Job Description

- There is an existing WinPM.NET system on site and 10 9340 Meters were included.
- It is necessary to configure new devices and update graphics showing on the Power Monitoring system.

## INP Task

- Ensure proper installation of Meters on gear, configure settings of meters according to panel schedule.
- Update navigation display on the WinP.Net server in order to display real-time data of added devices

## Conclusion

The existing system is able to communicate with new meters and to retrieve and display data on the Power Monitoring system.
